EXECUTIVE ARCHITECTURE & NON-TECHNICAL JOURNEY MAP

How Human 2.0 Works: Clear End-to-End Process Flow

A completely unobstructed, color-coded map designed for non-technical stakeholders. Follow how an intention in everyday life journeys through touchpoints, audio engines, and sovereign outcomes.

1 HUMAN STATE
How You Feel

The raw human starting moment:

Panic, confusion, habit, or curiosity.

ACUTE STRESS
Panic, Anger, Spiral

"My heart is racing; I need to stop before I react or explode."

FEELING LOST
Unsure / Overwhelmed

"I feel heavy and scattered, but don't know what I need."

DAILY HABIT
Morning Consistency

"I want to build a solid daily practice step by step."

INSOMNIA
Racing Bedtime Mind

"I am exhausted but my brain won't shut down in the dark."

SILENT SITTING
No Talking Needed

"I don't want a guide; just authentic bells and stillness."

EXPLORATION
Curiosity & Growth

"I want to explore Zen, Vipassana, or learn from experts."

↷ HOW THE LINE JUMPERS (ARCS) WORK

When the **Ebb AI handoff** crosses the other vertical tracks, it lifts cleanly up into a **semi-circular arc (bridge)**. This visual jumper guarantees zero tangling or confusion between separate features.

EBB'S DIRECT AUDIO CONNECTION

Ebb is not just a chat window. After sensing your emotional state, Ebb's AI engine directly selects the exact tailored meditation or soundscape and presents an instant **"Begin Now"** handoff into the full Audio Player.

🚧 AUDIO "UNDER CONSTRUCTION" PLAYER

For studio sessions currently in production, the app launches a complete interactive player. Stakeholders can test audio immediately with the **432Hz ambient drone synth** or tap **Upload MP3** to try real recordings.
